EPECIAL NOTICES.

THE PROPLE have been so much imposed upon by several worthless Sarsaparillas, that we are giad to be able to recommend a preparation which can be depended on as containing the virtues of that invaluable medicine, and is worthy of the public confidence. Doctor AYER'S SARSA-PABILLA cures when surthing can cure the discusses that require an alterative medicine. eases that require an alterative medicine.

LET US BE MERCIPUL TO OURSELVES.

The physical structure of the strongest human being is vulnerable everywhere. Our bodies are endawed by nature with a certain negative power, which protects them to some extent from unwholesome influences; but this protection is imperfect, and cannot safely be relied on in unhealthy regions, or under circumstances of more than ordinary danger. Therefore, it is wisdom, it is prudence, it is common sense to provide against such contingencies by taking an astidote in alcance: in other words by fortifying the system with a course of Hosterter's STOMACH BITTERS, the most complete protective against all the epidemic and endemic maladies that has been administered in any country. As a remedy for Dyspepsia, there is no medicine that will compare with it. Whoever suffers the pange of Indigestion, anywhereon the face of the earth where HOSTETTER'S BITTERS can be procured, does so voluntarily; for as surely as the Truth exists, this invaluable Tonic and Alterative would restore his disordered stomach to a healthy condition. To the Billious it is also especially recommended, and in cases of confirmed Constinution it affords speedy and permanent relief. In Canada, the West Indies, and Australia, the BITTERS rank above all other medicines of the class, and the demand for them in all foreign countries increases every season.

CONNUBIAL FELICITY AND BLISS-HOW WIVES SHOULD BE TREATED .- Nothing is more susceptible of harm "from the storms of this rude world" than the delicate pature of woman. The husband remains hearty and rebust in seasons when the frail and delicate wife droops like a rudely handled sensitive plant. "The storm that leaves the oak unscathed uproots the flower." If your wife is ailing, if sickness prostrates her, if maternal solicitude and care wear upon her, remember, you are the Heaven appointed guardian of her health. You should not fail to supply her with delicacies which will assist Nature in restor ing her to full vigor. PLANTATION BITTERS are just the thing she needs. Their effect in building up the system, restoring the life forces to their original vigor, creating new blood and adipos matter, is truly magical. my 10-1w

PROGRAMME Of an International Exhibition of products and apparatus of fishing, as well as other things used in fishing, which will be held at Bergen, Norway, from the 1st day of August until the 16th day of September, A. D. 1865. This exhibition, suggested by the initiative of the Common Council of Bergen, and supported by the Royal Government of Norway. has for its object the introduction to the public of the different products of fisheries, and the means of improving fisheries, and the branches of labor which appertain thereto in different countries.

Like that which was held at Amsterdam in 861, this exhibition will comprehend 1. All kinds of fish in the sea, from the whale

and seal to the smallest fish of the shores. 2. All kinds of fish in the gulfs, bays, mouths of streams and rivers. 3. All kinds of fish of the lakes, streams,

rivers, and canals. 4. The artificial increase of sea and freshwater fish. As to the different kinds of fish they will re-

eive at the exhibition. A. Products of fish of all kinds, alimentary as well as those used for agricultural and in-

dustrial purposes. B. Instruments used in preparing fish, name-ly: To remove the gills, cut up the fish, c., or models of such instruments. C. Models and drawings of ships, or of the appointments in which, or by aid of which,

the fish are prepared - that is to say, smoked, steamed, dried, &c. D. Substance used to preserve fish, such as salt, pickle, &c. E Instruments used to pack and transport the

products of fisheries, such as barrels, baskets, boxes, &c. F. Shirs and boats of all kinds employed in fishing, and all the rigging on the different parts composing it.

Models of objects mentioned under letter H. All things used to equip a fishing vessel, such as barrels, baskets, and articles used to preserve fish, bait, &c.

Tackle of all kinds used in fishing in every acceptation of the term, as well the materials used in their manufacture, as instruments to make fishing lines, oak bark, and other preservatives of fishing.

tackle. Artificial bait, and all which serves to prepare and preserve natural bait. Models of the habitations of fishermen, be

they houses or ships in the fisheries, as well as provisions and articles of dress. M. Popular works upon the improvement of To organize the exhibition and to preside over it, the Common Council of Bergen has nominated a commission, composed of the un-

dersigned members. In consequence, we have the honor to invite amateurs, fishermen, merchapts and artisans, who will have the goodness to send articles to the exhibition, to address themselves by writing until the first of July next to the Commission of the International Exhibition of Fishery, Bergen, Norway: PLATON. HIS M. F. MAJESTY'S LEGATION IN THE UNITED STATES NEAR CHARLESTOWN, MD. SIR: The directing committee of the associ-ation of the Portuguese Crystal Palace, erected in the city of Oporto, for an International Exhibition, has informed me, and requested it be generally made known in the United States that the said association has allotted space in the building for the products of American manufactures and industry, and that it invites the American community interested in such undertakings to forward samples of such products intended to be placed in the Crystal Palace, in time to reach their destination, be unpacked, and properly arranged before the orening of the exhibition, which will probably take place some time in August next, and continue open till the end of the present year.

As this International Exhibition is fully approved by his Majesty's Government, and is under its protection, individual exhibitors or their agents, will be sure to meet with every facility and encouragement from the authorities as well as from the association. the building for the products of American manities as well as from the association.

I am induced, sir, to lay the aforementioned information before you, that the purposes of the association, in regard to exhibitors from the association, in regard to exhibitors from the United States may more surely be at-tained, and with the hope that the American Government will extend to the International Exhibition in Portugal the like encouragement and efficient measures it was pleased to bestow upon previous similar undertakings by other friendly nations. FROM NEW ORLEANS. Communication Between Mobile and Ken. tucky-Immense Quantities of Cotton in

Alabamu-Removal of Trade Restric. tions Approved. NEW ORLEANS, VIA CAIRO, May 2.-Milton Brown, president of the Mobile and Ohio railroad, has asked permission to open the railroad from Mobile to Columbus, Kentucky, and says it can be done in two weeks.

Telegraphic communication will be reaumed in three days, General Canby having ordered it to be repaired.

The ram Cincinnati convoyed four steamers from Selma, having 500 bales of cotton on board, a part of which was marked "C. S. A."

Considerable cotton still remained at the river landings, but immense quantities were taken into the interior after the fall of Mobile, to prevent it being burnt by rebel cavairy. General Steele's command will return to The conflict between the military and State

officers still remains unsettled, and is likely to remains so until another election. The removal of the restriction on trade has given universal sausfaction.

Kirby Smith Still for War. NEW ORLEANS, May 5, VIA CATRO, May 11 -The rebel General Kirby Smith publishes a frantic appeal to his soldiers, dated at Shreveport April 21, denouncing the surrender of Lee and his troops in the strongest terms. Smith exhorts his soldiers to stand by their colors in this hour of adversity, and says the fate of the nation depends on them; that their resources are ample to protract the struggle until foreign aid arrives, or at least till they can secure for themselves the terms due a proud people. The remainder of the crew of the rebel ram

Webb has arrived here. Great trouble exists among the State and city officials in consequence of Governer Wells declaring the former registry of votes to be illegal, and ordering a new registry. Several city officiciais have been removed by Governor Wells, and others appointed. The Secretary of State declined to affix the seal of State to the new commissions, on the ground that the Governor had no power to make the removals. 'Mayor Kenney has been removed. Gov. Vance Gone Into Retiracy. GREENSBORO', N. C., May 8 .- Captain Myers, ordnance officer, who is detailed to receipt for the ordnance received by the United States from Johnston's army, states that he received nearly 9,000 stands of army. He thinks he will probably be able to gather up a few more. He will probably receive nearly 150 cannon. Many of the men who surrendered left at once, taking their arms, horses, and

Governor Vance left yesterday for his home in Buncombe county, having failed to obtain rmission from General Schoffeld to return to Raleigh and resume his functions as Governor Gov. Graham, Hon. John A. Gilmer, and Hon. Supplies for the Armies-Warm Weather. FORTRESS MONROE, May 11 .- In anticipation of the arrival of the Army of the Potomac and portions of General Sherman's army at Alexandria and Washington, large amounts of supplies of all kind have been despatched from this point, and are now well on their way to the Potomac river.

A fleet of thirty forage ; and ten commissary vessels sailed from here yesterday and to-day.

The destination of all vessels with supplies consigned to City Point and Richmond has been charged, orders having been received to detain a portion here and send the rest to Washington.

After an unusually long winter, the weather in this latitude has become at length exceed-ingly warm, though the atmosphere is pleasantly imoderated by the refreshing breezes from the bay. Fruits of various kinds are beginning to make their appearance. Strawberries, peas, and spring vegetables are quite abundant, and selling at cheap rates. The steamer Fulton arrived here to day

THE MEXICAN " ENIGRATION" SOFTEN The Mexican so called emigration scheme attracts attention, but seems to be magnified

beyond its real importance. The New York Times, referring to the subject, remarks: "There is a class of mischief making journalists bent at the present time on presenting visionary schemes of military seventure to tickle visionary and thoughtless young men who may think of settling in Mexico. They are no friends of the government of the United States, and no friends of our discharged volnnteers who are mainly intended to be in-fluenced - that propose such irresponsible

enterprises.
. "Wise and prudent governments are moved to such foreign enterprises naturally by an enlightened self-interest Whenever the time shall have arrayed that our interests shall seem to demand intervention in the dispositions made of the territory of Mexico by her invaders, then will be the time to pronounce upon a policy less passive and neutral than that now observed. Until such time arrives, the a tempts made to present the bordering republic as an immediate field for irresponible military adventures are conceived only in a spirit inimical to the peace and welfare of the United States."

The Philadelphia Ledger says: The Mexican emigration scheme is growing boider, and recruiting is openly conducted in New York. The government will soon be called upon to act in this matter, and there is only one way in which it can honorably act, and that is to put an end to filibustering. The country has been diegraced enough in previous attempts of this kind. New York is the seat of this new scheme of aggression. The traders in that city will have all the gains, the poor dupes who are entrapped into the enterprise will have all the losses to sustain. Men who are being discharged from our armies had better settle down at once to industry in their

own country, where the laws protect them, and where the opportunities for acquiring property by labor are greater than in any to which they could emigrate. THE GETTYSBURG CEMETERY .- This fice cemetery is progressing rapidly on towards completion, and during the coming summer will probably be finished. The substanctial granite wail, extending along the west side is completed. It is of superior finish and com-pactness. The heavy fron fence extending from the granite wall on the west, to Evergreen Cemetery on the south. and the iron railing dividing the National from the Evergreen Cemetery, are both finished. The latter is con-structed of gas pipes and metal posts, and will be lined with shrubbery. The gateway, also completed, is a beautiful structure. On each side of it are three massive iron posts, on which are perched two American eagles, majestically looking down on those who pass the portals of this sacred spot. The principal avenue is undergoing macadamization, and the trees and shrubbery are being planted. About nine'y-five different varieties of trees have been selected. The contractors for setting the head-

tones have also commenced. LABOR PLENTY .- An exchange paper says the trarmers in eastern Pennsylvania are hiring laborers among the rebel paroled prisoners and deserters at the low rate of \$8 to \$16 per month. Government furnishes these men free transportation." If this be true, the laborers striking for wages in the coal region should take warning, and consumers of coal, breadstuffs and provisions take heart, for lower prices are approaching. Carrying companies are anticipating a large business, invited by

reduced rates. Queen Victoria, it is said, is quite offended, because a company of capitalists are about to build an extension of the Braemer railway in Scotland, which may pass in sight of her country seat at Balmoral. She even talks of abandoning that summer residence Photographers are engaged in taking views of the scenery to show at what points the offend-ing railroad will be visible from the windows of Balmoral castle.

The two monitors Sandusky and Marietta, being constructed at Pittsburg, are nearly completed, and w III be ready for service in about forty days. Their turrets will be, when completed, of solid iron six inches thick. The deck is of pine, covered with a three-fourth inch iron plate, but so sloping that it is be-lieved the enemy's balls will glance off with-out doing any harm. Below decks on each vessel will be four engines, which may be used together or separately.

World, which has been anchored in the stream near Alexandria for many months past, went ashore on Wednesday at Smith's Inlet, near Point Lookout, Md., where she had been car-ried for use as a floating hospital. The New World is about 300 feet long and four stories high. The last accounts represented that severat boats were trying to pull her off the mud.

THE SEVEN-THIRTY LOAN.—The first issue of the 7 30's reached four hundred millions of dollars. Six hundred millions more were anthorized, and this second issue has been divided into two series of three handred mittions. Of the first of these two series, about one hundred and fifty millions have been already issued, leaving one hundred and fifty millions of the first series, and three hundred millions of the second series still available.

TURNING UP AGAIN.—Small silver change is again making its appearance. In the markets yesterday three-cent pieces showed themselves, for the first time in many months. The hoarders of this diminutive coin find it useless to keep it any longer. We saw countrymen yesterday at the Farmers' Market giving them in change. Pennies are beginning to be a drug. The authorities of the United States Mint find his to be the case .- Philadelphia Gazette.

Captain Joseph L. Fisk, who has had several exploring expeditions in the northwest, has tendered his resignation in the service, for the purpose of leading a colony of 20,000 settlers and miners to the rich region of the headwaters of the Yellowstone River country.
